```java
import java.util.Scanner;
class Exercitiu {
public static void main(String[] args) {
double a, b, c, sum;
double average;
Scanner pix=new Scanner(System.in);
a=pix.nextDouble();
b=pix.nextDouble();
c=pix.nextDouble();
sum=a+b+c;
average=(a+b+c)/3;
System.out.println("Suma este" + sum);
System.out.println("Media aritmetica este" + average);
pix.close();
}
}
```
